### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the claims are allowable over the closest prior art to Yamanaka et al. for the reasons argued by Applicant in the response filed 2/29/08. Yamanaka et al. fails to teach, suggest, or otherwise render obvious the claimed invention requiring a ferromagnetic layer and a magnetic layer formed from CoCrPt or CoCrPtM wherein the Pt content of each layer is defined as is the dynamic coercivity of each of the layers relative to one another.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
